-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☐ Responsive to communication(s) filed on 15 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Art Unit: 3611

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 18-23, 25, 26, and 30-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 18-36 of copending Application Number 10/883,498. Although the conflicting claims are not identical, they are not patentably distinct from each other because every feature currently being claimed was described in the copending application claims.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 18, 20-23, 25-26, 30 and 31 are rejected under 35 U.S.C. 102(e) as being anticipated by Egan (PGPub 2005/0116443).

Art Unit: 3611

Egan shows a motorcycle engine guard with a bar 24, 30, 34, 36, having sides that extends from the bottom to the top of the engine to protect it. The bar includes cutouts at 62 and pivotal footrests that connect to the cutouts and are retracted into them. Each footrest is pivotally connected by a pin 50 to the bar at the cutout and, in Figure 3 is includes a semi-cylindrical portion 54 with a straight edge. Pivotal movement of the footrest is limited by the bar at 40 and 70.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 19 and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Egan and Rice (USPN 6758758).

Egan lacks a flattened top to the bar.

Rice shows a motorcycle engine guard shaped as an inverted U-shape with a flattened top.

It would have been obvious to one of ordinary skill in the art to configure the Egan engine guard as an inverted U-shape with a flattened top, as taught by Rice, in order to provide a larger protection profile.

7. Claims 24 and 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Egan in view of Hsieh (USPN 6142499).

Egan lacks a slot and pin for limiting the pivotal motion of the footrest.

Hsieh shows a footrest with a slot 33 in the footrest and a pin 4 extending from a cutout in support 26, to limit pivotal movement of the footrest.

It would have been obvious to one of ordinary skill in the art to provide the Egan footrest with a motion limiting slot, as taught by Hsieh, in order to prevent overextension of the footrest and limit potential damage to the footrest support.

8. Applicant's arguments with respect to claims 18-32 have been considered but are moot in view of the new ground(s) of rejection.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M. Boehler whose telephone number is 571-
